November 18, 1952

Dear Luca—

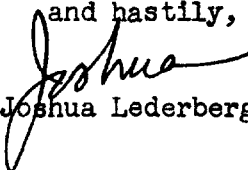

Your letter (and P.S.) just arrived, following the proofs from the J.G.M. which arrived yesterday.

I haven't time at the instant to answer your letter— will do so within a few days.

I wanted to tell you that I am returning the proofs to the press, with some typographical corrections; e.g. in the title: "An Ineffective". I have made no changes in content, having reserved this for you, and so informed the Journal. I hope they will have sent you proofs as well, or that you can have forwarded your instructions on changes in content to them.

In the references, Cavalli 1952 was incomplete. I assumed you meant your Bull. W. H. O. paper; if not this will also have to be changed.

Yours sincerely,
and hastily,

Joshua Lederberg

FOLD SIDES OVER AND THEN FOLD BOTTOM UP AND SEAL.
NO OTHER ENVELOPE SHOULD BE USED.
